

BM

BRYAN MCGAHAN

SOFTWARE ENGINEER

OBJECTIVE

Software Engineer with 1 year of experience developing modern and robust website UIs and APIs. Love to learn, explore and work with new and emerging technologies as well as long standing robust technologies.

SKILLS

Git, JavaScript, HTML, CSS, ExpressJs, VueJs, Python, C#, .NET, SQL Server

EXPERIENCE

SOFTWARE ENGINEERING INTERN • CRETE CARRIER CORPORATION • MAY 2022 • CURRENT

Designed, built and maintained modern website UIs and robust APIs in a team oriented, agile working environment. I worked on an API that allowed Crete to receive, process, and store driver applicant data so that those drivers could be hired.

HELP DESK INTERN • CRETE CARRIER CORPORATION • MAY 2021 • MAY 2022

Assisted users with computer related issues. Set up new computers and other equipment needed by existing and new users. Worked on processes and organization to allow the help desk team to complete work more effectively.

EDUCATION

BS COMPUTER SCIENCE • AUGUST 2020 - CURRENT • UNIVERSITY OF NEBRASKA-LINCOLN

While at UNL I have worked on a few substantial projects. In CSCE360 we built an ecommerce website using C#, .NET, ReactJs and SQL Server. For this project I was in a group of 5, I lead the development of the API for our website. I taught one other member in my group the fundamentals of C#, .NET and APIs as we built the API and database. I will be graduating in May 2024.

BS COMPUTER SCIENCE • AUGUST 2018 - MAY 2020 • CONCORDIA UNIVERSITY OF NEBRASKA

While at Concordia I took many entry level Computer Science courses where I learned the basics of computing and programming. I worked on many small command line applications ranging from simple calculators to solving complex algorithms such as Dijkstra's Algorithm.
